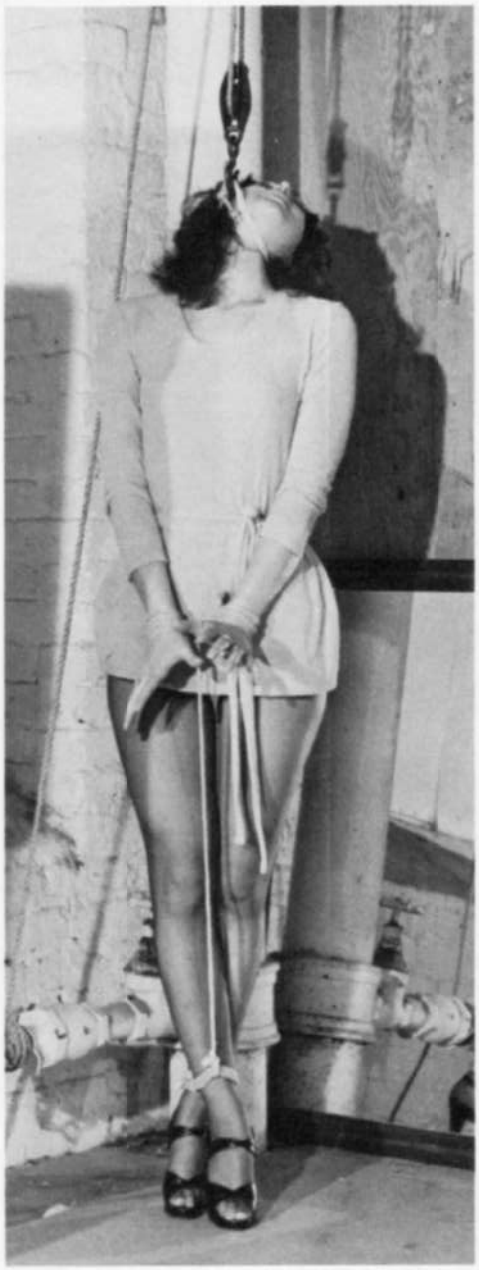
REFLECTIONS ON RESTRAINT



I wanted her to feel it right down to the marrow of her bones, to know the titillating frustration of being an abject captive with only the hope of giving sexual gratification as a means of survival, but with no expectation of enjoying it.

Shirley was her name. Her father owned the warehouse where I had her tied, her wrists on a line to her ankles and a rope around her neck to keep her up. The rope was looped, not in a noose, so there was little danger of strangulation, and I let her wait for a couple of hours while I admired the curves of her ass and thighs in a mirror I had put there.

ANGIE CAN BE FOUND, BOUND AND
TIED TO THE GROUND IN
BEST OF BONDAGE 2-4

She had never been through anything like this in her life. She wanted to escape, but that was impossible. At least, she thought, he's sobering.

Next he let me down. It felt too damn good for a moment! But he kept me standing stretched and then spent a happy few minutes whipping my breasts. I was ashamed of the way I sobbed. I couldn't help it. He was taking me into a depth of pain and misery such as I had never known or even read about. When he produced the pliers again I just groaned in utter desolation. My nipples stood out betraying me. But it was not them he wanted this time. He took one lip of my cunny between the metal jaws and let me have it good. If I had screamed before, I screamed doubly now. That place is tender. It is more tender than even I thought it would be. The pain was sickening. The sort you can't bear. You know you'll faint. But you do bear it and you don't faint. You scream. And you cry. And you plead. You promise your body and all its delights. You think up a few new ones that surely ought to interest a man...You'll do anything! Anything at all...And the pliers went right on grabbing little bits of my cunt and squeezing and pinching. I expect it pleased him immensely.

He did a bit of alternating now. He had three lovely places. Two nipples and my quim. He went the rounds. Always intent and purposeful. Very careful to give me the maximum pain. Sometimes he'd put the pliers down and go back to using his hands and fingers. After the wounds the metal had made, his hands were doubly awful. They brought to life all the other agony and mixed it with their own. He was pure sadist. I had no chance. He had no mercy. My torture went on. He did not believe in intermissions.

"Aller au lit? Mais c'est une excellente idée!" Son mari lui donne un baiser. "Tu sais comme je suis fatigué..!" — "Eh! Pas pour dormir, gros paresseux..!" KAYLA s'allonge sur le lit et elle éloigne la culotte de sa fente déjà ... bien mouillée pas ce qu'elle imagine. — "Ooh! Mais ça alors..!" ricane son mari. Il lui pince un des mamelons et soulève ses seins. "... Je ne le tiens plus! Tu vas voir comme il va tomber d'un seul coup sans crier garde...!" Et il ajoute alors avec un ton très sarcastique: "... Et s'il tombe comme cela, c'est qu'il n'a pas du tout envie..!"

"Gaan we naar bed? Een reusachtig idee!" Haar man geeft haar een zoen. "Ik heb je gezegd dat ik doodmoe ben!" — "Maar er wordt niet geslapen, luiwammes!" KAYLA gaat op bed liggen en trekt haar slipje opzij. In afwachting van de dingen die staan te gebeuren, is haar spleetje al goed nat geworden. — "Grote goden...!" moppert haar man, grijpt een tepel beet en trekt haar grote, zware tieten omhoog. "... Als ik die meteen loslaat,... zul je zien, hoe ze als pudding inelkaar zakken! Jouw tieten hebben er net zo weinig zin in, als mijn lul! Allemaal lusteloos!"

Bound Beach Bunny

Marilou was strolling along the beachside looking for something to do when I asked her if she could fancy some indoor tanning in my seaside apartment. "Sure. After all, you're kind of cute," teased the buxon, curly haired blonde as she wiggled her bronzed body into my bedroom. Once inside, she hit me with it: "You had better give me some money, or I will tell my parents that you have seduced me," she threatened. My beach-front cronies had told me about this one; I was fully ready to deal with her threats by means of rope and discipline.
